Prolongance

Photography by Eric P. Laverty

"I do not claim to repair what the photographic process fractures. I can only practice accountability. Moving as I record, keeping the frame open, asking for reciprocity. What remains is a negotiated trace, a sign that relation was given time. Prolongance does not free me from the economy of capture, it changes how I participate in it."

- Eric Laverty, New York

Printing and Framing

All images are printed on Moab Lasal Photo Matte 235 gsm paper, with ½" or 1" border (depending on print size), and hung exposed, with top and bottom, magnetized support bars (included in price). This combination neutralizes all possibility of reflections by lighting sources when printed on glossy photo paper or displayed behind glass or plexiglass. If collectors choose the same presentation format, reprints can be provided at cost if damaged to minimize risk of investment.

Conventional framing however, may be optimal in many scenarios and can be provided at several price points. Please inquire.

Payment Methods

Credit card (in person), ACH bank transfer (details provided at time of purchase), Zelle (eric@lavertystudio.com), Venmo (@Eric-Laverty-1), or check.

Taxes

Applicable sales tax shall be collected unless a valid resale certificate is provided in advance of sale.

Digital

Purchase of a print does not include reproduction rights. Digital licensing available upon request. No NFTs will be minted for this body of work.
